

To whom it may concern,

My name is Gianluca Colombo and I have been in contact with Prof. Duranti, Spadoni and Lucarini in relation the opportunity of collaboration between your prestigious University and our company.

Prof. Duranti sent me your email after having a chat with Prof. Donnanno, attached the form already filled.

We would like to offer the opportunity to your students to spend half of the internship (second 3 months) in Ireland in our pharmacies. We can offer a different experience to the students, in Ireland, the pharmaceutical market is still growing and there are great opportunities for the right candidates.

Alongside the regular training and teaching for the students, we would like to offer 12€ per hour for 5 days working. The pharmacies are open Monday to Saturday from 9am to 6pm, with 1.5 hour breaks during the day unpaid. We believe people deserve to get paid for their time and energy in our pharmacies, to thank them and to help them be members of our team.

Our hope is to let the students realize the opportunities that Ireland offers to graduate pharmacists, to build up a strong knowledge about a different marketplace and an incomparable working experience that should help all of them in their future choices.

We would appreciate if you could advertise the above opportunity through your website, social media and even in the University to reach as many students as we could please.

Please do not hesitate to contact me for any query.

Looking forward to hearing from you.

Kindest regards,
