Journal Editorial Boards	7

Research interests

Intellectual capital, corporate reporting, modern slavery, sustainability accounting, academic writing, qualitative research methods, non-financial accounting and reporting, and management accounting.

Biography

I have been an academic for more than ten years. I am currently a Professor of Accounting and Finance at Macquarie University, Sydney. Before completing my PhD in 2008, I worked for over 15 years as an independent business consultant across various industries. My PhD, titled *Intellectual Capital in Action: Australian Studies*, won the prestigious **Emerald/EFMD Outstanding Doctoral Research Award** in 2008 in the **Knowledge Management** category. My research activity spans intellectual capital, non-financial accounting and reporting, innovation, research methods, and academic writing, with close links to management, accounting and scholarly practice.

Since commencing my thesis in 2006, I have achieved an outstanding record as the author or co-author of more than 100 peer-reviewed academic journal articles in prestigious journals, such as *The Journal of Business Ethics*, *Accounting Auditing and Accountability Journal*, *The British Accounting Review*, *Journal of Intellectual Capital*, *Public Management Review*, *Financial Accountability and Management*, and *Accounting & Finance*. I have more than 90 co-authors are from many different countries, including Australia, Italy, the USA, Canada, Russia, and China.

I have won the Outstanding Paper Award for the *Journal of Intellectual Capital* (2017), and four **Highly Commended Paper** awards from the *Journal of Intellectual Capital* (2008, 2013, 2014 and 2015), two from the *Journal of Accounting and Organizational Change* (2014, 2016), and one from the *Journal of Knowledge Management* (2016). I have also won **Outstanding Reviewer Awards** from the *VINE* journal (2013), the *Journal of Accounting and Organizational Change* (2015, 2020), and the *Accounting, Auditing and Accountability Journal* (2016), and two **Citations of Excellence Award** (2015, 2016) from Emerald Journals.

I am an Associate Editor of the *Accounting, Auditing and Accountability Journal* and *Meditari Accountancy Research*, and a Deputy Editor of *Accounting & Finance*. I serve as a member of the Editorial Board for *Knowledge Management Research & Process*, *VINE: The Journal of*

Information and Knowledge Management Systems, Managerial Auditing Journal, and Accounting Forum and Journal of Accounting and Organizational Change.

The variety and impact of the journals I publish within reflect my active research pipelines in diverse fields of research interest. My work has received 13000+ citations (see <https://scholar.google.com.au/citations?user=zKFxle4AAAAAJ&hl=en>) with an h-Index of 50.

Since 2009, I have secured over \$300,000 in competitive research funding for five research projects. Each of the projects led to the publication of one or more papers. My current projects cover research on intellectual capital accounting, the production and consumption of accounting, integrated reporting, and the EU Directive on Non-financial Reporting, the Circular Economy and academic writing. While not an original applicant to the study, I have been invited to participate in what is known as the REFLOW Project: *constRuctive mEtabolic processes For materiaL fLOWs in urban and peri-urban environments across Europe*, hosted at Copenhagen Business School (<https://sc5.easme-web.eu/?p=820937>). The project has a total budget of €10,288,060 over three years to May 2022.

I am also regularly invited to deliver research presentations, conduct workshops, teach special classes, or collaborate with leading academics as a visiting scholar. I have made more than 100 presentations at more than 50 different universities.
